Children like the Mid-Autumn Festival very much because their parents usually buy them beautiful lanterns.

III. Read the passage , and then decide whether the statements are true(T) or false (F)

Almost all our energy comes from oil, coal, and natural gas. We call them fossil fuels. The earth's fossil fuels are running out. What will happen when there is no oil, coal, and gas on the earth?

Scientists are trying to find and use other alternative source of energy. We can use energy from the sun, the wind, and the water.

Solar energy is unlimited .The sun supplies all the energy used to grow plants, to evaporate water for rain, and to maintain the temperature of the planet. All are necessary for human life. If we are able to collect solar energy, we will be sure to have this abundant source of power.

- 1.The other words or phrase for fossil fuels are oil,gas ,natural gas
- 2.Natural sources of energy are energy from the sun, wind, water.
3. Solar energy is limited
- 4.Plants on the earth get energy from the moon.
- 5.The word "abundant " in the passage is closet in meaning with plentiful.
